

Here you can see 1/11 of hole Sweden, Dundret

Join me on an easy hike at our beautiful mountain Dundret.

I will take you up to Dundret, which is a nature reserve. We take a trip to "Åke på toppen", the highest top at Dundret, 823 m a.s. There we can (in clear weather) see 1/11 part of Sweden. Or we go to Västtoppen and the nice view of the Kebnekaise massif, Swedens highest mountain.

The best thing about the hike is of course the long-awaited coffee break!

Time required 2-3 hours
